信頼にこたえるまちづくりをしています。日ごろの備えを万全に。思いがけない災いから身を守るためには突然襲いかかる自然災害や

## We all work together to protect our community.

In an effort to improve the systems of fire and disaster prevention, the Ama Tobu Fire Department consisting of members from four different towns has been organized, and we are working to increase the fire-fighting facilities and improve the emergency rescue system. We, furthermore, conduct disaster drills so as to facilitate prompt actions when a disaster strikes.

Oharu Town is equipped with facilities such as Sunago Tobu Disaster Prevention and Exchange Center, Yatsuya Disaster Prevention Community Center, and Nishijo Disaster Prevention Community Center, representing the center for promoting voluntary disaster prevention activities.

## To develop a town that provides security.

Be completely prepared on normal days to protect yourself from sudden attacks of natural disasters and unexpected calamities.

We will develop a town that maintains the trust of the residents.

OHARU TOWN ~Harmony of person and a life~
