Accident prevention through daily efforts.

The risk of traffic accidents increase as traffic volume grows. A wide variety of activities often led by the Traffic Safety Promotion Council, Tsushima Oharu Branch of the Japan Traffic Safety Association, the Friendship Group for Female Drivers, and other

relevant organizations are carried out to facilitate safe traffic. The town is pursuing the establishment of a community free of traffic accidents in cooperation with various groups and the police department.

To protect safe living.

A community that is free of traffic accidents and with human bonds  
The achievement of this goal requires the efforts of each individual resident.  
Through activities with human hearts, we promote the development of community in which residents can live with peace of mind.
